

## Cloud Services

# Hosted Exchange

**Think outside the box.** No servers to maintain. 24/7 monitoring, maintenance and support. Simplify your IT without compromising features.

- Same flexible, powerful email management and collaboration features as server-based Exchange.
- Monitoring, upgrades, patches and backups, all taken care of for you.
- Business continuity made simple — your email is hosted in multiple highly-secure data centers, placed thousands of miles apart, to protect you from whatever may come.
- Eliminate aging equipment concerns.

**Burgess Computer**  
*One call • One team*

### Dedicated Expert Support

Our dedication to customer support sets us apart. Our resources are committed to delivering the highest level of service and support.

### Smooth Transitions

We take care of all aspects of configuring and migrating your mail. We're with you every step of the way to make sure your users are up and running with minimal interruption.

### Flexible Storage Options

Start small or think big — scale mailbox size to meet your needs and budget — starting at 2GB for user accounts and 1GB for public folders.

### Spam and Virus Filtering

Premium spam filtering and virus protection comes standard. Unwanted email is eliminated before it reaches your inbox or network.

### Data Backups & Retention

Includes our 14-day retention plan—restore lost messages immediately, and whole mailboxes within 6 hours.

### Cloud-hosted Archiving

Centrally-managed archiving helps you meet retention requirements. Retain up to 25GB/box for up to 10 years.

### Wireless & Platform Access Options

Outlook/Entourage, Outlook Web Access, Blackberry, ActiveSync, Good Mobile Messaging...  
... your mail is everywhere you are.

## The Power of Microsoft Exchange...

You already have email. What more is there?  
*Everything your competition has.*

- **Instant group & resource scheduling.** Check calendar availability and instantly know the best meeting times. Create automated calendar accounts for conference rooms and other schedulable resources.
- **Shared corporate calendars, contacts and more.** Marketing calendars, event listings, contacts, email templates, all sharable with colleagues right in their email screen.
- **Centralized email policies and antivirus/spam protection.** Ensure spam and email viruses are dealt with before they get to your users, and your network.
