

# Cloud Services

# Web Hosting

## Reach globally, host locally.

Our personalized hosting services let you focus on your business, and break free of website maintenance issues.

Our difference:

- Scalable, affordable plans with many features, including web statistics, monitoring and support.
- We get to know you and your business — work with the same courteous technicians every time you call.
- Knowledgeable staff available when you're ready to take your web presence to the next level.
- Additional IT support services available in one place, including application development, network/PC sales and support, and training.

*One call • One team*

## Free Setup, Weekday Support & 24/7/365 Monitoring

Our friendly staff will get your site up fast and keep you going!

## Support for Wide Range of Databases and Development Platforms

We support or are compatible with Microsoft Access, SQL and MySQL databases, Adobe Dreamweaver/Contribute sites, and Javascript, ASP/ASP.NET, and PHP pages.

**Domains and Domain Management** including Add-On Domains, Domain Expiration Monitoring, and Domain Registration available (see plans).

## Mail and FTP Services

FTP accounts, email accounts, email forwarding, auto-responders, web mail, and SPAM Protection (see plans).

## Web Site Management Features

Complimentary website statistics provided by Urchin.com help you track site performance. And our hosting environment supports many website tools, including server-side includes, customizable error pages, dedicated SSL certificates, CRON job commands, and E-Commerce capabilities.

**Extended Support and Development Options** available including file backup and restore services, after-hours service plans, site customization, and application development support. When your business grows, our services can meet all your IT needs.

## So Much More than Just Web Hosting...

Your customers want a website that works.

*You want a website that doesn't make you work.*

- **You can either "Do It Yourself" ...** Our hosting services provide everything you need to manage dynamic, highly-functional websites, from custom email to e-commerce, support for server scripts to secure pages... if you've got the know-how, we have an affordable plan that lets you do it.
- **... OR, Take a Team ...** And if you need more help, we have a network services and application development team ready to provide expertise and support as your IT goals change. Pay only for the services you need.
